

GSoC - calendar view for Tryton

Antoine Smolders

A calendar view in Tryton

The project was split into two parts :

- Improvement of goocalendar
- Integration of goocalendar into Tryton as a new view

My work on goocalendar

- Event store pluggable
- Font-size dependent on GTK parameter
- Minimal widget size
- Events drag and drop in both view modes
- Module documentation
- ...

My work on Tryton

- Creation of a test module for the new calendar view
- Modification of trytond to support calendar view
- Creation of the new view in Tryton GTK client
- Association of Tryton records with goocalendar events
- Toolbar to navigate through the calendar view

Demonstration...
